## General Information

### What is CPSA?

The CPSA Shanghai symposia and roundtables are highly interactive events where scientists share their experiences and visions in a collegial setting. The program will highlight speakers and sessions that provide real-world experiences with new technologies and critical insights into current issues and future needs. Education and specialized training are the foundation of all CPSA events.

Each session at CPSA Shanghai will address the current industrial landscape and the global need to bring products to market faster. The program chairs will promote discussion and exchange of experiences, ideas, and visions so that current processes that involve analytical measurement can be benchmarked and future strategies may be developed.

### Goals

The goal of CPSA Shanghai is to provide in-depth review of innovative technology and industry practices through open discussion of industry-related issues and needs. The program will highlight speakers and sessions that provide real-world experiences with new technologies and critical insights into current issues and future needs. Education and specialized training are the foundation of all CPSA events.

### Format

The CPSA Shanghai symposia and roundtables feature a unique format to allow scientists to openly share comprehensive perspectives on industry-related issues and needs. First-hand experiences with specific applications and technologies are openly discussed. Lively discussions in a collegial setting are a hallmark of the meeting.

### Symposia Feature

Industry Issues & Needs · Analysis Strategies · Performance Benchmarks

### Roundtables Feature

Commercial Technology · Mainstream Applications · Analysis Trends

### Short Courses Feature

Practical Industry Applications · Fundamentals  
Real-World Examples · Emerging Methods and Techniques

## 2012 Program Overview

### From Bench to Decision Making. From Basics to Application.

Broad-based awareness of the analytical sciences is achieved through open discussion with industry leaders. This unique event is made possible by sponsors who are dedicated to promoting awareness and understanding of the analytical sciences with the hope of inspiring significant advances in the field. Symposia topics and discussions for CPSA Shanghai include:

- Workshops
- Plenary Lectures
- Understanding Regulatory Requirements of DDI
- Emerging Drug Discovery Platform in China
- Regulated Bioanalysis
- Analytical Methodology & Technology
- Pharmaceutical Sciences/Analytical Science
- Biotransformation
- Translational Sciences
- Bioanalytical Technologies
- Poster Session
- Young Scientist Excellence Awards
- Vendor Exposition
- Joint sessions with local area bioanalytical and metabolism discussion groups

...and much more. Visit [www.cpsa-shanghai.com](http://www.cpsa-shanghai.com) for more information and up-to-date program announcements.

### Exhibition

Building on the success of last year's exposition, CPSA Shanghai 2012's Expo will expand to put attendees in direct contact with even more of leading industry vendors having in-depth knowledge of technology and applications.

### Parallel Sessions

CPSA Shanghai features a parallel symposia format, providing attendees with even more options to meet their fields of interest.
