

## CEM Digestion Reference Paper List

- [RD001](#) Digestion Safety Concerns Associated with Wet Ashing Samples under Pressure Heated by Microwave Energy, Lee Gilman, Will Grooms - CEM Corporation, Matthews, NC.
- [RD002](#) Rapid Sample Preparation for Determination of Iron in Tissue by Closed Vessel Digestion and Microwave Energy. David B. Van Wyck *Clinical Chemistry* 4, 1128. 1988
- [RD003](#) Acid Digestion of Marine Samples for Trace Element Analysis Using Microwave Heating, Ralph Sturgeon - Analyst, January 1988 Vol. 113.
- [RD004](#) Microwave Digestion of Coal Ash for Elemental Ash Analysis - Michael W. Osborne, Edward L. Curry - Proceedings of the 6th Conference, Coal Testing Conference, 9/15-17/87.
- [RD005](#) Wet Microwave digestion of Diet and Fecal Samples for ICP Analysis Gwen Schelkoph, David Milno - *Analytical Chemistry*, 1988, 60, 2060-2062.
- [RD006](#) Clean Room and Microwave Digestion Techniques; Improvement in Detection Limits for Aluminum Determination by GF-AAS E. M. Skelly and F. T. Distefano - *Applied Spectroscopy*, 1988, Vol. 42. No. 7.
- [RD007](#) Laboratory Evaluation of Microwave Digestion Systems - D. C. Cook Presented at American Industrial Hygiene Conference, May 31- June 5, 1987.
- [RD008](#) Digestion Determination of Si, Al, Ca, Mg, Fe, Ti, Mn, Individuals of Rare Earth Elements and F in Baotou Ore by Microwave Oven Digestion, ICP, AA and Chemical Analysis Methods - Yu Zhong-hou, Li Boa-hou, Tian Zhong-hou, Han Kai. NOTE: Copy used in poster section of Pittsburgh Conference also available.
- [RD009](#) Determination of Si, Al, Ca, Mg, Fe, Ti, Mn, Cu, Co and Ni in Vanadium-Titanium-Iron Ore by Microwave Oven Digestion, ICP, AA, and Chemical Analysis Methods - Li Boa-hou, Yu Zhong-hou, Han Kai. NOTE: Copy used in poster section of Pittsburgh Conference also available.
- [RD010](#) Preliminary Investigation of the Application of Microwave Oven to Digest Environmental Samples for Inorganic Analysis - D. C. Hillman, D. E. Dobb, B. M. Joshi, L. C. Butler, R. F. Smolecinski, G. LeBlanc. Presented at CLP Caucus, February 25, 1987.
- [RD011](#) Microwave Digestion of Environmental Samples for Trace Metal Analysis - Duane Kruse. Presented at Illinois WPCF Conference, May 15, 1986.
- [RD012](#) Recovery Study Using an Elevated Pressure Temperature Microwave Dissolution Technique - R. Revesz, E. Hasty. Presented at Pittsburgh Conference, March 1987.
- [RD013](#) Comparative Determination of Metals in Municipal Wastewater and Sludge using Microwave Heating of Samples in Pressurized Vessels. L. B. Gilman, G. N. LeBlanc, R. Revesz. Presented at Georgia WPCA Conference, August, 1987.
- [RD014](#) Comparison of Digestion Procedures for Determination of Mercury in Soils by Cold Vapor Atomic Absorption Spectrometry - W. Van Delft and G. Voss. *Analytical Chemistry*, 1988, 60, 147-156.

[RD015](#) USEPA-CLP Stmt of Work USEPA Contract Laboratory Program - Statement of Work for Inorganics Analysis - Multi-Media - Multi-Concentration - Document Number ILMO1.O. IFB No. DOOR61R1 & D00046R2R1.

[RD016](#) ICP-OES Evaluation of Microwave Digestion - William R. Kammin and Michael J. Brandt - March 1989, Spectroscopy.

[RD017](#) Rapid Dissolution of Mineral, Metal and Alloy Samples with the Technique of Sealed Containers in a Microwave Field or How to Reduce Digestion Times by a Factor of from 5 to 50 - Elia Boffelli. Proceedings of the XXII Aim Spectrochemical Seminar, The VII Italo-French Atomic Spectrometry Assembly and The II Sci Analytical Spectroscopy Meeting - October 5-7, 1988.

[RD018](#) Digestion Feasibility Study for Ascertainment of Hair Element Reference Norms. O. Senofonte, N. Violante, E. Beccaloni, L. Fornarelli, A. Power, and S. Caroli. Istituto Superiore di Santia. Viale Regina Elena 299, 00161 Roma.

[RD019](#) Microwave Digestion for Total Nitrogen Analysis - Daniel Riemer, Jeffery Curtis - Tennessee Technical University Center for Water Quality Management, Cookeville, TN.

[RD020](#) Microwave Energy for Acid Decomposition at Elevated Temperatures and Pressure Using Biological and Botanical Samples - H. M Kingston, L. B. Jassie - American Chemical Society - Analytical Chemistry, 1986, 58-2534.

[RD021](#) Validation of a Method for Determining Elements in Solid Waste by Microwave Digestion - David A. Binstock, Peter M. Grohse, and Alvia Gaskill, Jr. - Research Triangle Institute, RTP, NC; and Charles Sellers, Office of Solid Waste, US Environmental Protection Agency, Washington, DC.

[RD022](#) Preparation of Environmental Samples for Metal Analysis Using Microwave Digestion - L. B. Gilman, G. N. LeBlanc, R. Revesz CEM Corporation, Matthews, NC.

[RD023](#) Atomic Spectroscopy Advances - Recent Advances in Microwave Sample Preparation - L. B. Gilman and W. Gary Engelhart - CEM Corporation, Matthews, NC - Spectroscopy Vol. 4 No. 8 - 1989.

[RD024](#) Microwave Digestion of Tree Foliage for Multi-element Analysis Y. P. Kalra; D. G. Maynard and F. G. Radford, Northern Forestry Centre, Forestry Canada; Canadian Journal of Forestry Research August, 1989.

[RD025](#) Microwave Digestion and Subsequent Separation of Some Uranium and Thorium Series Elements from Soils and Sediments - Donna M. Beals, United States Testing Company, Inc. Richland Division - Presented at the 35th Annual Conference on Bioassay, Analytical and Environmental Radiochemistry at Charleston, SC - 1989.

[RD026](#) Comparison of a Microwave Digestion System to Other Digestion Methods for Plant Tissue Analysis - J. E. Rechcigl\* and G. G. Payne \*\* Poster Session of 1989 Annual Meeting of American Society of Agronomy, Crop Science Society of America, Las Vegas, Nevada, October 15-20, 1989. \*\* J. E. Rechcigl and G. G. Payne, Agricultural Research and Education Center, University of Florida, Ona, FL 33865. Contribution from the University of Florida, Agricultural Research and Education Center, Ona, FL Florida Agricultural Exp. Stn. \* Corresponding author.

[RD027](#) A Rapid Sample Preconcentration Method for Trace Elements in Animal and Plant Tissue - P. M. Grohse, Research Triangle Institute, RTP, NC 27709.

[RD028](#) Microwave Digestion of Plant Samples for Sulfur Analysis - Calvin R. Finch, H. Dale Pennington, Texas Agricultural Extension Soil and Plant Analysis Laboratory, Texas A&M University, College Station Texas 77843; Calvin G. Lyons, Horticulture Department, Texas A&M University, College Station, Texas; Sara E. Littau, CEM Corporation, Matthews, NC - Communications in Soil Science and Plant Analysis, 21(7&8), 583-594 - 1990.

[RD029](#) Microwave Digestion of Soils, Sediments and Waste Water for Analysis of Environmentally Significant Elements - Robert Revesz and Elaine Hasty, CEM Corporation Matthews, NC - May, 1990.

[RD030](#) Microwave Sample Preparation for Total Nitrogen and Phosphorus Determination - S. E. Littau and W. G. Englehart, CEM Corporation, Matthews, NC - Presented at the 32nd Rocky Mountain Conference, Wednesday, August 1, 1990.

[RD031](#) The Determination of Heavy Metals in Silt Using Microwave Digestion Beun de ronde, A. H. Van Den Akker and c.G. J. Van de Wall of RIZALesIstad.

[RD032](#) Microwave Digestion of Carbonate Rock Samples for Chemical Analysis, Anthony J. Kemp and Craig J. Brown - Department of Geology, University of Bristol, Bristol BS8 1RJ - Analyst - September 1990, Vol. 115.

[RD033](#) A Rapid Method for Total Nitrogen Analysis Using Microwave Digestion - X. T. He, R. L. Mulvany and W. L. Banwart - Published in Soil Science Society of American Journal - Vol. 54 No. 6 November/December 1990.

[RD034](#) Applications of Inductivity Coupled Plasma Atomic Emission Spectrometry in Occupational Health - Anna M. Paudyn and Roy G. Smith - Ontario Ministry of Labour - Presented at the 1990 Winter Conference on Plasma Spectrochemistry, St Petersburg, FL, January, 1990 - Published in JAAS September 1990-Vol. 5 No. 6.

[RD035](#) Comparison of Procedures for TCLP Extract Digestion; conventional vs. Microwave - V. L. Verma, PhD, Supervisor, and T. M. McKee, Director, Browning-Ferris Industries Houston Laboratory, Houston, TX. Presented at the 7th Annual Waste Testing and Quality Assurance Symposium (EnvirACS) in Washington, DC - July 10, 1991.

[RD036](#) Vapor-phase Acid Digestion of Inorganic and Organic Matrices for Trace Element Analysis Using a Microwave Heated Bomb - Henryk Matusiewicz, Politechnika Poznanska, Department of Analytical Chemistry, Ponzani, Poland and Ralph E. Sturgeon and Shier S. Berman - Institute for Environmental Chemistry, Ottawa, Ontario, Canada - Journal of Analytical Atomic Spectrometry, June 1991, Vol. 6.

[RD037](#) Comparison of Microwave Digestion with Conventional Wet Ashing and Dry Ashing Digestion for Analysis of Lead, Cadmium, Chromium, Copper, and Zinc in Shellfish by Flame Atomic Absorption Spectroscopy - Helen T. McCarthy and P. Christopher Ellis - Rhode Island~Department of Health Laboratories, Providence, RI - J. Assoc. Of Analytical Chemistry - Vol. 74, No. 3, 1991.

[RD038](#) Principles and Practices of Microwave Dissolution/Digestion of Plant Material - Dr. Robert O. Miller - University of California Davis: DANR Analytical Lab, Hoagland Hall, Davis, CA. Presented at the International Soil Testing and Plant Analysis Symposium, August 22-27, 1991 - Orlando, FL.

[RD040](#) Comparison of Microwave Versus Hot-Plate Dissolution Techniques Determining Lead in Paint Chips - William E. Corl, Environmental Chemistry, Naval Public Works, Norfolk Naval Base, Norfolk, VA Spectroscopy, October 1991.

[RD041](#) Microwave Digestion of Multi-Component Foods for Sodium Analysis by Atomic Absorption Spectrometry - Robert E. Sapp and Sandra D. Davidson, ConAgra Frozen Foods Analytical Laboratory, Batesville, AR - Journal of Food Science. Vol. 56 No. 5, 1991.

[RD042](#) Closed Vessel Microwave Digestion of Wastewater Samples for Metals Determination - CEM Corporation, P.O. Box 200, Matthews, NC November 26. 1990.

[RD043](#) Comparison of Microwave and Conventional Extraction Techniques for the Determination of Metals in Soil, Sediment and Sludge Samples by Atomic Spectrometry - Joop Nieuwenhuize and Carla H. Poley, Vas-Delta Institute of Hydrobiological Research (DIHO), The Netherlands; Adrianus H. van de Akker, Institute for Inland Water Management (DBW/RIA), The Netherlands; Wouter van Delft, State Institute for Quality Control of Agricultural Products (RIKILT), The Netherlands. The Analysts - April 1991, Vol. 116.

[RD045](#) Excretion and Tissue Distribution of Selenium Following Treatment of Male F344 Rats with Benzylselenocyanate or Sodium Selenite Ock Soon Sohn, Len Blackwell, Janice Mathis, Wagdy W. Asaad, Bandaru S. Reddy, and Karam El-Bayoumy - American Health Foundation, April 30, 1991.

[RD046](#) Standard Operating Procedures for Lead in Paint by Hotplate or Microwave-based Acid Digestions and Atomic Absorption or Inductively Coupled Plasma Emission Spectrometry - Prepared by: D. A. Binstock, D. L. Harrison, P. M. Grohset W. F. Gutknecht, Center for Environmental Measurements and Quality Assurance Research Triangle Institute, RTP. NC.

[RD047](#) Microwave Sample Preparation With Temperature Feedback Control Elaine Hasty and Sara Littau, CEM Corporation, Matthews, NC Presented at the 1991 Eastern Analytical Symposium, Somerset, NJ November, 1991.

[RD048](#) A New Approach to the Analysis of Silicon Carbide Refractories R. J. Julietti and Barbara C. E. Reeve, Morgan Materials Technology Ltd., Bewdley Road, Stourport-on-Severn, Worcestershire.

[RD049](#) Development and Validation of a Method for Determining Elements in Solid Waste Using Microwave Digestion Association of Analytical Chemistry, Vol. 74 No. 2, 1991 - David A. Brinstock, Peter M. Groshe, Alvia Gaskill, Jr., Charles Sellers, H. M. Kingston, and Lois B. Jassie.

[RD050](#) Determination of Geographic Origin of Agricultural Products by Multivariate Analysis of Trace Element Composition - Robert S. Schwartz and Le T. Hecking, US Customs Service, Research Division, Washington, DC - Presented in part at the 1990 Winter conference on Plasma Spectrochemistry, St. Petersburg, FL - January 8-13 1990. Journal of Analytical Atomic Spectrometry - December 1991, Vol. 6.

[RD052](#) On-Line Microwave Digestion of Slurry Samples With Direct Flame Atomic Absorption Spectrometric Elemental Detection - Stephen J. Haswell and David Barclay, School of Chemistry University of Hull, Hull HU6 7RX, UK - Analysts, February 1992, Vol. 117.

[RD053](#) A Microwave Digestion Technique for Trace Element Analysis of Industrial Furnace Feedstreams, Bruce A. Pedersen, Systech Environmental Corporation, 245 North Valley Road, Xenia, OH 45385.

[RD054](#) Method 3015 - Microwave Assisted Acid Digestion of Aqueous Samples and Extracts. Revision 0 September 1994.

[RD055](#) Method 3051 - Microwave Assisted Acid Digestion of Sediments, Sedges, Soils and Oil. Revision 0 - September 1994

[RD056](#) Optimization of Microwave Sample Preparation Methods Using Pressure Feedback Control - Elaine T. Hasty, Sara E. Littau, Robert Revesz, CEM Corporation, Matthews, NC - Presented at the 1991 Pittsburgh Conference and Exhibition.

[RD057](#) ASTM Method D4309-91 Standard Practice for Sample Digestion Using Closed Vessel Microwave Heating Technique for the Determination of Total Recoverable Metals in Water - Reprinted from the Annual Book of ASTM Standards - American Society for Testing and Materials.

[RD058](#) Comparison of Microwave Digestion with Conventional Wet Digestion for Analyses of Mercury in Marine Samples by Manual Cold Vapor AAS and FIAS - Hilde Fauske, Jan Brenna and Kaare Julshamn - Institute of Nutrition, Directorate of Fisheries, P O Box 1900 Nordnes, N-5024 Bergen Norway - Presented at The 13th Nordic Atomic sPectroscopy and Trace Element Conference. Gelio, NorwaY, 1992

[RD059](#) Microwave Decomposition of Dusts, Ashes, and Sediments for the Determination of Elements by ICP-AES - Anna M. Paudyn and Roy G. Smith-Contribution from Ontario Ministry of Labour, occupational Health Laboratory, Weston Ontario, Canada-Canadian Journal of Applied Spectroscopy - Volume 37, No. 4 - August 1992.

[RD060](#) Determination of Trace Metals in Platinum by Electrothermal Atomic Absorption Spectrometry Following a Closed Vessel Microwave Dissolution Procedure - Michael W. Hinds, Royal Canadian Mint, Ottawa, Ontario, Canada; Sara Littau, CEM Corporation, Matthews, NC. Analyst, September 1992, Vol. 117.

[RD061](#) Comparison of Microwave versus Conventional Dissolution for Environmental Applications - H. M. "Skip" Kingston, Peter J. Walter Spectroscopy 7(9) November/December 1992.

[RD062](#) Development of Inorganic Microwave Dissolutions - Bradley D. Zehr, GTE Products Corp, Towanda, PA - American Lab - December 1992.

[RD063](#) Microwave Power Calibration Considerations in the Standardization of Sample Preparation Methods - W. Gary Engelhart, CEM Corporation American Environmental Lab - December 1992.

[RD064](#) Silver Recovery of Environmental Water Samples Using Temperature Controlled Microwave Sample Preparation - Elaine T. Hasty and W. Gary Engelhart - CEM Corporation, Matthews NC - Oral presentation at the 34th Rocky Mountain Conference, August, 1992

[RD065](#) Chemical Oxygen Demand Using Microwave Digestion: A Tentative new Method - NP Slatter and H Alborough, Umgeni Water, Pietemar tizburg 3200, South Africia - ISSN 0378-478B=Water SA Vol. 3, July 1992.

[RD066](#) An Atomic Fluorescence-Based Method for Ultratrace Mercury Detection in Environmental Samples - R. Paul Swift and Jesse E. Campbell ICF Kaiser Engineers, Inc., Port Orchard WA - Spectroscopy 8(2), February 1993.

[RD067](#) Microwave Chemical Synthesis References - W. Gary Engelhart 1-26-93.

[RD068](#) Testimonials/City of Memphis City of Memphis Letter, Dr. Clarence Johnson, Chemist January 14, 1987.

[RD069](#) Testimonials/Safety Kleen Corp Safety Kleen Corporation, Internal Memo, Keith Shake - November 198.

[RD070](#) Testimonials/USEPA/Region V/ NPDES USEPA/Region V - Limited NPDES Approval Letter - March 1988.

[RD071](#) Testimonial/USEPA/Open Vessel Digestion Approval Letter - February 1987.

[RD072](#) Testimonial/RTI Internal Memo Research Triangle Institute Internal Memo, Alvia Gaskill August 1987.

[RD073](#) Testimonial/News In Brief/Lab Microwave Lab Microwave is Coming of Age - News In Brief, Industrial Chemical News. October. 1986.

[RD075](#) New Microwave Digestion Technology Is Aiming For Safety - Franklin Hoke, The Scientist, July 6, 1992.

[RD076](#) Federal Register - Part III - Environmental Protection Agency, 40 CFR Part 136 - Guidelines Establishing Test Procedures for the Analysis of Pollutants; Microwave Digestion: Final Rule Friday, September 11, 1992.

[RD077](#) Federal Register, Vol. 60, No. 9/ Friday, January 13, 1995/Rules and Regulations/ Environmental Protection Agency/ Hazardous Waste Management System: Testing and Monitoring Activities. FINAL RULE.

[RD078](#) Quicker Lab Samples: CEM Corporation and NIST Cut the Time to 20 Minutes from up to 3 Days - Cheryl Pellerin.

[RD079](#) Photon/Electron-Rejecting Alpha Liquid Scintillation (PERALS) Spectrometry: A Review - W. Jack McDowell, ETRAC (East Tennessee Radiometric/Analytical Chemicals), Inc. Radioactivity & Radio chemistry, Vol. 3, No. 2~ 1992.

[RD080](#) HPLC Determination of Atrazine and Principal Degradates in Agricultural Soils and Associated Surface and Ground Water Thomas R. Steinheimer - National Soil Tilth Laboratory, Agriculture, Ames, Iowa 50011 - J. Agric. Food Chem. 1993, 41, 588-595. Published 1993 by the American Chemical Society.

[RD081](#) Standard Operating Procedures for Microwave Extraction of Glass Fiber Filters - Louis J. Prnager, Methods Research & Development Division - Atmospheric Research and Exposure Assessment Laboratory, Office of Research and Development - U. S. Environmental Protection Agency, Research Triangle Park, NC.

[RD082](#) Determination of Total Mercury in Raw and Cooked Fish Tissue by Microwave Digestion/Cold Vapor Atomic Absorption Spectroscopy Jeffrey M. Morgan, Maurice R. Berry Jr & Robert L. Graves U. S. Environmental Protection Agency, Environmental Monitoring Systems Laboratory, Quality Assurance Research Division, Development and Evaluation Branch, Cincinnati, Ohio - Poster Paper.

[RD083](#) Synthetic Applications of Microwave Systems for Organic Synthesis: A Report for CEM Corporation - George Majetich and Rodgers Hicks, Department of Chemistry, The University of Georgia, Athens, GA.

[RD084](#) Determination of Elements in Paint and Paint Scrapings by Inductively Coupled Plasma Atomic Emission Spectrometry Using Microwave Assisted Digestion - Anna M. Paudyn and Roy G. Smith Ontario Ministry of Labour, Occupational Health Laboratory, 101 Resources Road, Weston, Ontario Canada - Fresenius' Journal of Analytical Chemistry (1993) 345:695-700.

[RD085](#) Hazardous Waste Management System: Testing and Monitoring Activities Federal Register - Vol. 58, No. 167 - Tuesday, August 31, 1993 Proposed Rules - RCRA SW-846 Draft Methods 3051 and 3015.

[RD086](#) Ref Paper-SOW Method 3.0 - DRAFT Analytical Methods for the Determination of Metal Compounds Collected on Hi-Vol Filters and Analyzed by Inductively Coupled Plasma (ICP) Atomic Emission Spectrometry. Inductively Coupled Plasma Mass Spectrometry (ICP-MS) or Graphite Furnace Atomic Absorption (GFAA)

Spectrometry. DRAFT USEPA Contract Laboratory Program - Metal Analysis of Ambient Air (MAA) December, 1991 - Revision MAA01.0.

[RD087](#) A Procedure for the Simultaneous Determination of Total Nitrogen and Total Phosphorus in Freshwater Samples Using Persulphate Microwave Digestion - P. a. Johnes, Department of Environmental & Evolutionary Biology, University of Liverpool and A. L. Heathwaite, Department of Geography, University of Sheffield, England - Wat. Res. Vol 26, No. 10, pp 1281-1287, 1992.

[RD088](#) SW-846 Update - Kim Eubanks Kirkland, EPA's Office of Solid Waste (OSW) Methods Section - Environmental Testing & Analysis, January/ February, 1994.

[RD089](#) Explosions and Explosives: Fundamental Aspects - T Urbanski & S K Vasudeva, Institute of Organic Chemistry and Technology, U1 Koszykowa 75, Warsaw Poland - Journal of Scientific and Industrial Research, Vol. 40, August 1981, pp 512-519.

[RD090](#) Pressure Vessel Survives Hot Acids and Microwaves - Robert N. Boggs, Southern Technical Editor - Design News/5-23-94/87.

[RD091](#) Plasma Spectrometry Applied to Hair Analysis - M. Achillit L. Campanella, E. Cardarelli, R. Grossi, O. Senofonte, J.E.F. Britto(1) Department of Chemistry, University "La Sapienza", Rome (I) Head Department of Pathology, Faculty of Medicine, Havana, Cuba

[RD092](#) Inorganic Microwave Digestions Incorporating Bases - Bradley D. Zehr, Judith P. VanKuren, and Hugh M. McMahon, osram Sylvania, Inc. Towanda, PA - Analytical Chemistry, Vol. 66, No. 13, July 1, 1994.

[RD093](#) An Assessment of Dissolution Techniques for Analysis of Geological Samples by Plasma Spectrometry - Marina Totland, Ian Jarvis and Kym E. Jarvis - Chemical Geology, 95 (1992) 35-62 - Elsevier Science Publishers B.V., Amsterdam.

[RD094](#) ASTM Desig. DS513-94 - Standard Practice for Microwave Digestion of Industrial Furnace Feedstreams for Trace Element Analysis - Current edition approved March 15, 1994, published May 1994.

[RD095](#) One-step Microwave Digestion Procedures for the Determination of Aluminum in Steels and Iron Ores by Inductively Coupled Plasma Atomic Emission Spectrometry - Maria Grazia Del Monte Tamba and Roberta Falciani, Centro Sviluppo Materiali, Rome, Italy; Teresa Dorado Lopez and Aurora Gomez Coedo CENIM, Madrid, Spain Analst. September 1994, Vol. 119.

[RD096](#) Comparison Between Microwave and Conventional Heating Procedures in Tessier's Extractions of Calcium, Copper, Iron and Manganese in a Lagoon Sediment - Monica Gulmini, Giorgio Ostacoli and Vincenzo Zelano, Dipartimento di Chimica Analitica, Universita di Torino, via P.-Giuria 5, 10125 Turin, Italy and Annamaria Torazzo, Dipartimento di Scienze Merceologiche, Universita di Torino, P. za Arbello 8, 10125 Turin. Italy.

[RD097](#) A by-pass for the sampling bottleneck - Robert Fidler and Axel Schoner, CEM Corporation, Matthews, NC and Germany Analysis europa, October, 1994 - Pg 39-42.

[RD098](#) Low-volume Microwave Digestion of Marine Biological Tissues for the Measurement of Trace Elements - S. Baldwin, M. Deaker and W. Maher Analyst, August 1994, Vol. 119 - Pgs 1701 - 1704.

[RD099](#) A Microwave Oven Digestion Method for The Determination of Metals in Sewage Sludges by ICP-AES and GFAAS - M. Bettinelli and U. Baroni; Central Laboratory ENEL-DCO, Italy - International Journal Analytical Chemistry, Vol. 43, pp 33-40-June, 1990.

[RD100](#) Analysis-of Coal Fly Ash and Environmental Materials by Inductively Coupled Plasma Atomic Emission Spectrometry: Comparison of Different Decomposition Procedures - Maurizio Bettinelli, U. Baroni and N. Pastorelli, ENEL-DCO Central Laboratory, Italy - Journal of Analytical Atomic Spectrometry, August 1987, Vol. 2.

[RD101](#) Microwave Oven Sample Dissolution for The Analysis of Environmental and Biological Materials - M. Bartinelly, U. Baroni and N. Pastorelli, ENEL-DCO Central Laboratory, Italy - Analytica Chimica Acta, 225 (1989) 159-174.

[RD102](#) Determination of Arsenic, Cadmium, Lead, Antimony, Selenium and Thallium in Coal Fly Ash Using the Stabilised Temperature Platform Furnace and Zeeman-effect Background Correction - M. Bettinelli, U. Baroni and N. Pastorelli, ENEL-DCO Central Laboratory, Italy Journal of Analytical Atomic Spectrometry, October 1988, Vol. 3.

[RD103](#) General Guidelines for the Acid Digestion of Fish and Shell fish Microwave Digestion/Elemental Analysis - Method Number NIEA C303.01T Executive Yuan - Environmental Protection Agency - Republic of China, Official Gazette Number 5 of Volume 7, May 1994 and Executive Yuan - Environmental Protection Agency Publication, Ref. No. (83) - Huan - Su - Chen - Tzu - 00566, April 12, 1994.

[RD104](#) Concentration of Total Al, Cr, Cu, Fe, Hg, Na, Pb, and Zn in Commercial Canned Seafood Determined by Atomic Spectrometric Means after Mineralization by Microwave Heating - Jorge E. Tahan, Jose M. Sanchez, Victor A. Granadillo, Hernan S. Cubillan, and Romer A. Romero - Laboratorio de Instrumentacion Analitica, Facultad Experimental de Ciencias, La Universidad del Zulia, Maracaibo, Zulia, Venezuela - Journal Agric. Food Chem. 1995, 43, 910-915. (American Chemical Society)

[RD105](#) Determination of Ultra-level Total Mercury in Sediment and Tissue by Microwave Digestion and Atomic Fluorescent Detection - J. Scifres, Chemist; M. Wasko, Chemist; W. McDaniel, Inorganic Chemistry Section Chief, US Environmental Protection Agency, Athens, GA, and V. Cheema, Cooperation Education Student with the US Environmental Agency and the University of GA. - American Environmental Laboratory, June, 1995.

[RD106](#) A Comparison of Mineral Extraction Techniques of Citrus Juices as Analyzed by Inductively Coupled Plasma Atomic Emission Spectrometry R. Rezaaiyan and S. Nikdel - Journal of Food Science - Volume 55, No. 5, 1990.

[RD107](#) The Advantages of Using Microwave Sample Preparation Technology in a Busy Environmental Laboratory - Southern Science - Dr. Gary S. Whiting, Principal Scientist; Mr. Rob Haines, Senior Scientist, Waste Management, Southern Science, Capstone Road, Chatham, Kent. (1995)

[RD108](#) A Field-Transportable Hydride-Generation Atomic Absorption Method for Detection of Arsenic in Soils - R. Paul Swift, ICF Kaiser, Orchard WA; Donald W. Johnson, SVL Analytical, Kellogg, ID Spectroscopy, September 1995-pages 40-43.

[RD109](#) Determination of Metals in Soils, Sediments, Sludges and BIOTA. Methods Manual-National Rivers Authority, Leeds Laboratory-June 1995 Method No: DII Author: AP - Issue No: 1

[RD110](#) Field Screening of Chromium, Cadmium, Zinc, Copper, and Lead in Sediments by Stripping Analysis-Khris B. Olsen, Pacific Northwest Laboratory, Richland, Washington, and Joseph Want, Rossi Setiadui and Jianmin Lu, Department of Chemistry, New Mexico State University Las Cruces, NM. Environmental Sci. Technology, Vol 28, No 12, 1994 The American Chemical Society.

[RD111](#) Manganese and Zinc Analysis in Milk by Microwave Oven Digestion and Platform Graphite Furnace Atomic Absorption Spectrometry - Miguel Angel de la Fuente, Gonzalo Guerrero, and Manuela Juarez-Instituto del Frio (CSIC), Ciudad Universitaria s/n, 28040 Madrid, Spain Journal of Agricultural and Food Chemistry, 1995, 43. The American Chemical Society.

[RD112](#) Open Vessel Microwave Assisted Sample Preparation for Lead Analysis in Paint Chips, Wipes and Soil - J. Doug Ferguson, Michael D. Miller and Robert Revesz, CEM Corporation, Matthews, NC - Presented at the 1996 Pittsburgh Conference, Chicago, IL March 4-8, 1996.

[RD113](#) Latest Microwave Technologies Solve Difficult Sample Preparation Problems - QualityTime - Supplement to Today's Chemist at Work 3/96 Pg 48.

[RD114](#) Microwave Digestion and Alkali Fusion Procedures for the Determination of the Platinum-group Elements and Gold in Geological Materials by ICP-MS - Marina M. Totland, Ian Jarvis: School of Geological Sciences, Kingston University, Surrey, UK and Kym E. Jarvis: NERC ICP-MS Facility, Centre for Analytical Research in the Environment, Imperial College, Berks, UK - Chemical Geology 124 (1995) 21-36.

[RD115](#) Low volume Microwave Digestion for Determination of Selenium in Marine Biological Tissues by Graphite Furnace Atomic Absorption Spectroscopy. M. Deaker and W. Maher, Faculty of Applied Science, University of Canberra, P.O. Box 1, Belconnen ACT 2616 Australia

[RD116](#) Low volume Microwave Digestion of Marine Biological Tissues for the Measurement of Trace Elements. S. Baldwin, M. Deaker and W. Maher, Faculty of Applied Science, University of Canberra, P.O. Box 1, Belconnen, ACT 2616, Australia Analyst, August 1994, Vol. 119

[RD117](#) Determination of Total Arsenic and Selenium in Soils and Plants by Atomic Absorption Spectrometry with Hydride Generation and Flow Injection Analysis Coupled Techniques. Oroncio Jimenez De Blas and N. Rodriguez Mateos, University of Salamanca, Department of Analytical Chemistry, Nutrition and Food Sciences, 37008 Salamanca Spain. A. Garcia Sanchez, Institute of Natural Resources and Agrobiolgy, CSIC, Apartado 257, Salamanca, Spain. Jimenez De Blas Et Al.: Journal of AOAC International Vol. 79, No 3, 1996.

[RD118](#) Determination of phosphorus in turbid waters using alkaline potassium peroxodisulphate digestion. L. Woo, W. Maher, Water Research Centre, University of Canberra, P.O. Box 1 Belconnen 1616, Australia. Analytica Chimica Acta 315 (1995) 123-135

[RD119](#) Microwave Closed Vessel Sample Preparation of Paint Chips, Soil, Dust Wipes, Baby Wipes, and Air Sampling Filters for analysis of Lead by ICAP. March, 1995, Sara Littau, J. Douglas Ferguson, and Robert Revesz, CEM Corporation P.O. Box 200 Matthews, NC 28106

[RD120](#) Testimonial/ Sanitary District, Rockford, Ill. Studies/Report sent to the Illinois EPA as a formal request for a local method variance for using the microwave to digest samples prior to metals analysis. Duane Kruse, Sanitary District of Rockford Illinois, 3333 Kishwaukee St., Rockford, IL 61105 3/2/88

[RD121](#) EPA Method 29-Determination of Metals Emissions From Stationary Sources Prepared by Emission Measurement Center, Technical Support Division, OAQPS, EPA April 25, 1996.

[RD122](#) Clean Laboratory Chemistry for the Microwave-assisted Digestion of Botanical Samples..

[RD145](#) Development of a Mobile Laboratory for analyses at Uranium Cleanup Sites Resulting in Significant Time and Cost Savings - Joe Bianconi, RUST Federal Services, Inc.

[RD146](#) The Development of Emergency Radioanalytical Techniques for the Determination of Radiostrontium and Transuranic Radioisotopes in Environmental Materials, Jonathon Martin and Kevin O'dell (Central Radiochemical Laboratory, Magnox Electric Plc.).

[RD147](#) Interlaboratory and Intralaboratory Variability in the Analysis of Mercury in Coal - John Lengyel, Jr, Matthew S. DeVito, and Richard A. Bilonick. The Paper is a review of various sample preparation techniques including, closed vessel microwave digestion, for coal samples and subsequent analysis for mercury. We are one of the participants in this work (we are identified as laboratory # 10). The work validates the closed vessel digestion technique as producing acceptable data for mercury from coal. It would be of value to all commercial testing labs and utility plants that analyze coal.

[RD148](#) Speciation of Arsenic in Fish Tissue Using Microwave Assisted Extraction Followed by HPLC-ICP-MS - Kathryn L. Achley, Clayton B'Hymer, Karen L. Sutton, and Joseph A. Caruso. Dept. of Chemistry University of Cincinnati, OH. Submitted for Publication to the Journal of Analytical Atomic Spectrometry, Sept. 1998.
